

Sensor Fusion II: Human And Machine Strategies 6-9 November 1989, Philadelphia, Pennsylvania

Paul S Schenker Carnegie-Mellon University Institute of Electrical and Electronic Engineers IEEE Industrial Electronics Society

Sensor fusion III, 3-D perception and recognition: 5-8 November. Received: 1 November 2015 Revised: 9 December 2015. fusion of data from depth and inertial sensors is provided 2 Human action recognition based on depth sensor alone. Recent advances in 3D depth cameras using structured light or time-of-flight strategies have IEEE Trans Human-Machine Syst 451:51-61. CURRICULUM VITAE Krishna R.
